Education

Bachelor of Arts in Integrated Studies, Graphic Design / Script Writing / Animation - Murray State University

Work Experience

Silent Hero Studio / SculptKid - Artist, Writer, Art Director and Founder 2010 - Present

Worked with a variety of companies to create branding identities, online illustrated property and developed original content to help establish and set apart new companies in the online market. Also successfully planned, executed, and followed through on a Kickstarter to publish a new comic series, American Oni. Developed an online personality for creation of 3D printing, gaming assets, and entertainment/tutorial videos for broadcasting on Twitch and YouTube.

iBeta Quality Assurance / Tester / 2012 - 2013

Tested video game beta builds for inconsistencies and "bugs" in programming, design and connectivity. Filled out detailed reports for developers to be able to recreate "bugs" which required extensive, seemingly meaningless actions. Was the "go-to tester" for high score challenges, end level content, and online competitive game play.

Vannguard - Locator, Lead Tech, Auditor, Trainer 2016 - 2018

Joined Vannguard when they took over the greater Boulder area's Xcel contract. Quickly worked my way from locator to Lead Tech and Auditor after receiving multiple comments of good and clean work practices from contractors and superiors in the field. Eventually took over as trainer to help facilitate a healthy and concise introductory week for new and veteran locators to develop positive habits to align with Vannguard's principals of locating.

AOS Locating LLC - Locator, Auditor, Trainer 2018 - Present

Entered the Oil Field locating work force with little experience of the Oil Field Industry. On top of covering my locating duties I've assisted in auditing and training new hires and current employees. Helped rework our current training materials and guide books. Used down time to consolidate our current paperwork to cut down on paper waste and increase efficiency of paperwork. Redesigned our sketches to increase consistency and clarity amongst or companies. Explored and am currently attempting to implement new auditing processes to reduce potential angst and increase a positive perception on the necessity and benefits of the audit program.

Skills & Program Expertise

Expertise - Procreate, Photoshop, Illustrator

Advanced Knowledge - Blender, Audition

Familiarity - Unity, The greater Adobe Suite, Aseprite

Activities / Volunteer Work / Honors

The Cabbie Hats / Sound Advice / Big Yummy

Created and lead bands that played local bars and hosted fund raising events for the MSU Public Relations Student Association of America and Murray Calloway Animal Shelter. Played music for art openings in the greater-Denver area and for a cultural event in Bailey.

SculptKid Game Design and Development

Participated in multiple game jams and indie game development projects including Ono the Faceless, Zomdra, and Weapons Grade Studio's: Evolver fighting game.

Community Theater

Acted in multiple plays for Purchase Players in Mayfield, KY with roles including Lumiere (Beauty and the Beast), the Cowardly Lion (Wizard of Oz), Tom Sawyer (Big River) and more. Performed in multiple local movie releases with Factor Five Films and guest starred in Joshua Dorsey's local YouTube Series 1-800-GhostBGone. Played as an supporting cast member in Fort Collins On-Stage Performance's production of Monty Python's SPAM-A-Lot.
